

Is chairside treatment acceptance important to you?

Then you need iTero Element® with the revolutionary iTero® TimeLapse technology

Don't just tell your patients they need treatment. Show them why.

Scan in as little as 60 seconds* and, using iTero TimeLapse, show your patients stunning 3D visualizations of changes in tooth movement, tooth wear, and gingiva over time.

iTero TimeLapse can aid treatment conversion

Advancement in technology that gives your patients visualization into their oral health condition.

Display magnification to help you focus on the area of oral concerns for better patient communication.

Clinicians can prescribe follow-up treatment like mouth guards, Invisalign® clear aligners, and sleep appliances, when required.

Make informed decisions to course the treatment plan for your patients to help ensure a healthy smile at their next checkup.

Patient Monitoring

Tooth Wear

Tooth Movement

Gingival Changes

To experience iTero Element with TimeLapse Technology visit iTeroTimeLapse.com.

Maximize your digital platform while keeping patients engaged in their oral health

Invisalign® Outcome Simulator

Engage patients and increase conversion by showing them their potential Invisalign treatment outcomes.

Invisalign Progress Assessment

At any time during Invisalign treatment, compare a patient's new scan with a specific stage of their ClinCheck® treatment plan to visually assess and communicate treatment progress.

Real-time Scan in Color

Distinguish between gingival and tooth structures for a more precise clinical evaluation while scanning.

Make an Investment with a Great Return

The digital scanner that drives practice growth enabling clinicians to visualize changes in dentition, and it's designed for a better patient experience to help you grow your bottom line revenue.

Seeing is believing: Experience iTero TimeLapse animation at iTeroTimeLapse.com.

**With the iTero 1.5 software upgrade, patient scans can be completed in as little as 60 seconds with the same accuracy and reliability that you have come to expect from iTero scanners.*
